Times expressed or implied the opinion that the facts of the case amounted to the breaking of the N. Y. Times expressed or implied the opinion that the facts of the case amounted to the breaking of the N. Y. Times expressed or implied the opi

noe in regard to events of the late war with fex ico. He spoke at some length of the bad trea of Mexicans by foreigners. Among other

It will be remembered that during the Mexican , in addition to the returns of "killed and wounded," a very disproportionate anmiber of the American forces were continually reported "mis-ning." Here then is the solution. Two thousand ree hundred of the enlisted soldiers desertes is whole number, only seven were native-lo n ricans The fact is surely sufficient to show the pre-ty of enlisting in our army and navy

CTMr. Buchanan's l'acitic Railrond letter, which of November, was passed silently over by nine tentls of the Democratic papers of the South. They generally did not dare either to approve the letter or lemn it. Still there were a few of them that had courage and manliness to speak out. The arleston Standard seemed even to doubt whether Buchanan's infamous letter would not justify the Presidential electors, already elected to vote for him, in turning from him and alecting somebody

Thorough-red Durham rattle are not generally as much es the Durham with some favorite milch cow, made arham bear such high prices that the aim has been Address orders for Ti o produce rapid increase and early maturity, he object, this plan of keeping cows only as breederthe progeny of a cow regularly milked and that of ield in view by breeders. To a certain extent they nong the Durhams and breeding from them for he dairy, while kept at the dary, their milking qualia find a good milker among the offspring of cows

that in deeper culture than we have been satisfied with is a partial remedy against drouth, and is a great advantage even in good seasons; and that, in deep soils, the chemest and most effectual method of this, is not sub-soiling, but honest, deep plooning. And, perhaps, when I add, that except the implements I have myself, and except the experiments I have myself, and except the experiments I have herein spoken of, there are neither such implements, nor such proceedings, anywhere about me, you will, at least hold me excused for making so many words over what little I have done in the matter during three seasons.

The recurrence of these terrible droughts is a new and most important feature in our agriculturol
